

License & Terms of Use

Copyright (c) 2026 Mattia Piccinini and Gastone Pietro Rosati Papini. All rights reserved.

Restricted Use

This repository contains the PDF slides for the PhD course "Physics-informed Machine Learning for Modeling, Planning, Control and Estimation of Physical Systems".

By accessing, downloading, or viewing these materials, you agree to the following terms:

1. **No Reproduction or Redistribution:** You may not copy, reproduce, redistribute, host, or publish this material, in whole or in part, in any format or medium (including but not limited to websites, public repositories, or print) without the prior written authorization of the authors.
2. **No Derivative Works:** You may not alter, transform, build upon, or create derivative works from this content for public distribution or commercial purposes. Prior written authorization from the authors is required for any adaptation or modification of the materials.
3. **Personal and Educational View Permission:** You are granted permission to view and download the materials solely for personal, non-commercial educational use.

Requests for Authorization

If you wish to use, adapt, or reproduce any part of these slides for your own teaching, presentations, or research publications, you must obtain explicit permission from the authors.

Please contact us directly via email to request authorization:

- **Mattia Piccinini:** mattia.picci95@gmail.com
- **Gastone Pietro Rosati Papini:** gastone.rosatipapini@unitn.it

Many thanks for your understanding, and we hope you find the course materials useful for your learning and research!
